EDUCATION

MA Interaction Design

NCAD | 2025 TO 2026

First Class Honours (1.1)

BSc (Hons) Product Design

TU DUBLIN | 2020 TO 2024

First Class Honours (1.1)
Final year project: IoT system for farmers

Leaving Certificate

MALAHIDE COMMUNITY SCHOOL | 2014 TO 2020

470 points

AWARDS

- Innovation Award Winner, Bolton Trust, 2023
- Engineers Without Borders Ireland Winner, Nutricure, 2024
- Final Year Best Process Award, TU Dublin
- Red Dot Award contributor, Dolmen, 2025
- Semi Finalist, Enactus Ireland and England, 2024
- Presenter, Women in Technology United (WiTU), 2024
- 2 Day TU Dublin Presented Challenge, 2024
- Woodwork Student of the Year, first female winner

PROFILE

Energetic, sociable and happiest when I am working with people to solve real problems. I bring a mix of hands on product thinking, a love of digital experiences and the calm leadership I built running live events, with the curiosity to ask why and the drive to see ideas through.

EXPERIENCE

Graduate Product Designer

DOLMEN DESIGN & INNOVATION | AUG 2024 TO AUG 2025

- Collaborated with clients, engineers and consumers on confidential consumer and healthcare projects at a leading Irish design consultancy.
- Built CAD models for manufacturing and designed consumer products with integrated electronics.
- Designed digital UX and UI for medical machines, validated through usability testing with nurses and doctors.
- Took part in and facilitated co design workshops, turning client feedback into solutions.
- Helped integrate AI into Dolmen's design process.
- Contributed to a Red Dot Award winning product.

Steward to Operations Manager

FRONTLINE SECURITY | 2018 TO 2024

- Promoted from steward to Supervisor, then Operations Manager in 2021 after earning a Private Security Authority licence.
- The only woman in the company in the role; the CEO described me as having "natural leadership abilities".
- Organised and led teams of up to 40 people at Croke Park and major concerts, year round.
- Acted as the sole company representative on site, coordinating with Event Controllers and promoters such as MCD.
- Recruited staff on commission and won work by convincing clients of our team's capabilities.
- Handled invoicing and billing, and resolved incidents calmly in real time.

PROJECTS

Accenture x NCAD, Interaction Designer

COGNITIVE OFFLOADING IN THE AGE OF AI | MAY TO SEPT 2026

- Collaborated with Accenture mentors on my MA thesis, designing a desktop experience that helps designers use AI without losing their own thinking.
- Researched how designers use AI and defined the soft skills core to a designer's identity.
- Designed interactions to protect those skills, using Claude for working code and Figma Make for interactive prototypes.
- Built a working proof of concept and ran testing workshops with designers, refining it after every round.

SKILLS

Service Design: Service Blueprinting, Journey Mapping, Workflow Diagnosis, Hazard Mapping, Co Design Workshops, Service Concepts.

Interaction Design: User Flows, Wireframing, Interactive Prototypes, Proof of Concept Prototyping, Human and AI Interaction Design, Accessible Design (WCAG).

Product Design: CAD for Manufacturing, Electronics Integration, Physical Prototyping.

Research: Interviews, Observation Studies, Usability Testing, Research Synthesis, Test Data Analysis, Archetypes.

Consulting: Client Relationships, Stakeholder Interviews, Workshop Facilitation, Presenting, Pitching.

Tools and AI: Figma, Figma Make, Claude (AI assisted coding and custom design skills), Gemini, Sora, Copilot, Adobe Creative Suite, SolidWorks, Fusion 360, Rhino, Microsoft 365, Basic HTML/CSS, JavaScript.

MORE PROJECTS

Engineers Without Borders, Service Designer

NUTRICURE | APR TO MAY 2024

- Reframed a crop growing device into a service for communities in India, built on knowledge, trust and touchpoints.
- Interviewed a member of the target community and designed tactile workshop tables to gather feedback across a language barrier.
- Ran 2 pilot tests with weekly crop tracking before rolling out across 12 households.
- Ran a session with a local school, after which families met regularly to share progress.
- Won the Engineers Without Borders Ireland award.

Dublin City Council, Service and UX/UI Designer

IRISH LANGUAGE VOUCHER PLATFORM | 1 WEEK SPRINT

- Designed an online platform rewarding people around Synge Street for using Irish, with government vouchers for local businesses.
- Mapped the end to end service journey, from using Irish to earning and redeeming vouchers.
- Created user flows, taking the concept to UX/UI within a 1 week sprint.

Mater Hospital x Equipcare, Product Designer

HOSPITAL EQUIPMENT AND STAFF SAFETY | 1 WEEK SPRINT

- Collaborated with medical experts to prevent ICU and HDU staff injuries from sharp edged keyboards on moveable Brandon Arms.
- Explored integrating anaesthesia attachment points into the new Mizuho Trios Trauma Table.
- Diagnosed staff workflows through observation studies and stakeholder interviews.
- Mapped hazards and tested prototypes, synthesising insights into design directions.

Beo Nua x Department of Public Expenditure, Service Designer

STAYING ACTIVE AND CONNECTED IN RETIREMENT | 4 WEEKS

- Explored how communities can help people stay active and connected in retirement.
- Used qualitative research and design probes to understand the lived experience of retirement.
- Synthesised insights into archetypes and service design concepts.
- Delivered end to end service design, UX/UI design and a campaign.

To whom it may concern,

This is to state that Ms Shanen Smyth Boore was employed by this company from 2018.

Shanen initially started off as a customer service agent/ steward and worked at several of our sites notably Croke Park where she was first employed on the Premium levels. She studied for her Private Security Authority licence which she received and was then promoted to the role of Supervisor. She then ran key areas on many of our event sites.

In 2021 Shanen was again promoted. This time to Operations Manager. In this role she managed up to forty people both in Croke Park and at concerts in St Annes Park and in Fairview Park as well as many other events. She was the sole Frontline representative on these occasions dealing directly with the Event Controller and Promoters management team. These were very busy concerts. Extremely demanding with many challenges throughout. She was highly complimented by our client who very much appreciated the exceptional security operation provided on each occasion. Much as she would be regarded as quite young for such a demanding role at the time it was accepted that she had the ability, energy, experience and commitment to do a great job.

Shanen was the perfect employee. Highly intelligent, dedicated and totally reliable. She has natural leadership abilities and is very mature for her age. The event business can be very tough. But she dealt successfully with all of the many problems that occurred while working with us and was a huge asset to this company.

I cannot recommend Shanen highly enough to any future employer. For any further information you may require contact me at any time.

To whom it may concern.

Re: Shannen Smith Boore

I lecture on and am chair of the TU Dublin B.Sc. (Hons) Product Design programme, which Shannen Smith Boore completed in the academic year 2023/24.

In this programme, students undertake a variety of modules in the Faculties of Engineering, Business and Applied Arts, and synthesise their learning from all three to become effective designers and innovators. Development of new product concepts which have impact across society is a core part of their skillset. I knew Shannen for four years in this capacity.

In this time, I found Shannen to be an extremely diligent and capable student. She performed well in both individual and team settings and was capable of taking input from other students and academic mentors. In project work, Shannen performed strongly in the various aspects of the product development process and displays a particular interest in empathising with end users. Shannen's work in her final year project was of high quality.

On a personal level, I found Shannen to be courteous in lectures and generally enthusiastic and positive in applying herself to any problem which may present itself.

If you require any further information, please contact me using the details below.

Sincerely,

Dr. Colm O'Kane
